BALLOT INFORMATION

Please select the option below you would like the Town of Deep River to implement to rectify the issues identified with the current Fire Service model?

- ✓ **Option 1 - Maintain 8 full-time firefighters and hire 24 volunteer firefighters – Result will maintain the current complement of full-time firefighters and establish a functioning fire suppression service suitable for the local needs and circumstances of the Town. This option will increase costs year over year.**

OR

- ✓ **Option 2 - Attempt to negotiate (including interest arbitration if necessary) a reduction in the number of full-time firefighters from 8 to 2 (through attrition) and add 24 volunteers. Result will establish a functioning fire suppression service suitable for the local needs and circumstances of the Town. This option will reduce costs year over year. If unsuccessful in reducing the number of full-time firefighters and associated costs, consider steps to transition the existing fire service model to education and prevention only. Result will be no fire suppression services and reduced costs year over year.**
