BICYCLE SAFETY

Cycling is a fun and healthy activity. It's a low-cost way to get around, and it's good for the environment.

Before you head out on a bike, learn the rules of the road, helmet information and safety tips for cyclists of all ages.

Rules of the road

As a cyclist, you must share the road with others (e.g., cars, buses, trucks, motorcycles, etc.).

Under Ontario's Highway Traffic Act (HTA), a bicycle is a vehicle, just like a car or truck. Cyclists:

- must obey all traffic laws
- have the same rights and responsibilities as drivers
- cannot carry passengers - if your bicycle is only meant for one person

Riding on the right

You must stay as close to the right edge of the road as safely as possible when being passed.

Where you can ride

You can ride on most roads, except:

- controlled access highways, such as Ontario's 400-series highways
- across a road within a pedestrian crossover - you must walk your bike to the other side
- across a road within a crosswalk at any intersection or other location with traffic signals - you must walk your bike to the other side.

Bike helmets

Children and youth - By law, every cyclist under age 18 must wear an approved helmet. Riders under 16 years old: a parent or guardian must make sure their child wears a helmet.

Adults - Helmets are not compulsory for adults over 18. However, it is strongly recommended that all riders wear helmets.
