Home Heating Safety

An Annual Inspection is a Must

Heating systems that burn fuel such as gas, oil or wood need to be inspected and maintained annually. It is the only way to ensure efficient and safe operation.

For furnaces, while you can and should change filters, the only person qualified to inspect your natural gas, propane or oil furnace is a certified technician who works for a TSSA-registered contractor.

To find a TSSA-registered contractor in your area, visit COSafety.ca.

Remember, furnace and fireplace inspections are your responsibility. If you do not arrange it, it will not

get done. Do not forget to have your furnace, fireplace or any fuel-burning appliance inspected annually!

Getting started:

- Visit COSafety.ca to find a TSSA registered contractor near you
- Obtain at least three written estimates specifying the work to be done, who will do the work, as well as start and completion dates
- Determine whether repairs are covered by a warranty; avoid 'fly-by-nighters', especially people who show up at your door offering special deals

Your Home Heating System

To keep your home heating system working the way it should this season; there are actions that you as the owner can take, but there are things that need to be performed by a professional.

- Keep the area around the furnace free from dust, lint, rags, paint, drain cleaners and other materials or chemicals that could catch fire or explode if they become too hot

Safety Tips

Do-it-Yourself

- Examine the heating system occasionally for signs of deterioration, such as water stains, corrosion or leakage; in forced-air systems, clean the furnace air filters frequently – at least twice a heating season

- Make sure warm-air outlets and cold-air outlets are not covered by carpets or blocked by debris
- Make sure walls, other obstructions or new renovations do not block the heating system's air supply

No limits on material or colours, but please leave a way to attach string. Include your name on them if you would like your snowflake returned in spring.

Angel Tree - Stop by the library to collect an angel from the Angel Tree and check out the beautiful Ottawa Valley Creative Arts Open Studio installation "We Set the Table For..." at the library.

DEEP RIVER POLICE DEPARTMENT

The Deep River Police Service has begun its annual festive RIDE program for 2020. During the holiday season you will see Deep River officers conducting RIDE checks randomly checking drivers for impairment by alcohol, drug or a combination of both.

We encourage everyone to think twice before getting behind the wheel after having consumed alcohol or drugs. Never let anyone drive if you know or suspect that they may be under the influence of alcohol or drugs.

If you plan to drink or consume drugs, do not drive and consider making other arrangements such as using a designated driver, taxi/public transit or staying over.
