

Police week May 14th, 2021

“Working together to keep our communities safe”

The Deep River Police Service understands that working together to keep our community safe is not something that can be done alone. The Deep River Police Service works cooperatively with the Deep River Fire Service and Renfrew County Paramedics to provide the best service possible. Working together with different agencies and other first responders ensures that the community we serve receives the most appropriate service they require.

The Deep River Police Service also works cooperatively with the Deep River and District Hospital, Renfrew County Family and Children Services, North Renfrew Family Services and Victim Services of Renfrew County to name a few.
