

Brockhouse Way Project Area

The scope of this project consists of rehabilitation through mill and pave of 350 meters of Brockhouse Way (Entrance of Cockcroft Residence to Entrance of Town water access/boat launch). In order to complete this section four culvert outlets will be replaced as well as widening the road from the current 6.2 meters to 7 meters. Lastly, the 8-vehicle parking lot to Riverbank Park, along Brockhouse Way, will be rehabilitated as part of the project.
