Spring Clean Up

Spring is a great reminder to your smoke and carbon monoxide alarms. In order for smoke and carbon monoxide alarms to do their jobs, they need to have working batteries. Working smoke alarms are required on every storey of your home and outside all sleeping areas. For added protection, it is recommended to also install smoke alarms inside all bedrooms Carbon monoxide alarms must be installed out side all sleeping areas if your home has a fuel burning appliance, fireplace or attached garage. These are some simple things we can do to stay safe during the month as the warmer temperatures approach

Hydrant Flushing Notice

Please be advised that hydrant flushing will commence in the Town of Deep River beginning on Monday April 11th, 2022. Flushing will run until Friday May 20th, 2022, but may be extended due to unforeseeable circumstances, please check the NRT and Town website for any changes to these dates.

Flushing is part of a routine maintenance program that is necessary to maintain the integrity of the water system, remove sediment from water mains, verify the proper operation of hydrants and valves, and maintain firefighting capability.

Residents throughout Town may experience a drop in water pressure and water may be rusty or cloudy due to flushing of the distribution system. If you have rust-coloured water please run your COLD WATER TAPS ONLY (suggested taps: outside hose, bathtub or laundry tub) until the water is clear.

Please DO NOT use your hot water until you have clean running water again.

We apologize for any inconvenience this may cause. If you have any questions, please contact the Public Works Department at 613.584.2000, ext. 107

Deep River Police Service

April 1st marks the first day of BeADonor month in Ontario. This month is devoted to raising awareness for organ and tissue donations. There are over 1500 people waiting for lifesaving and life changing tissue and organ transplants. In fact, every 3 days a person dies waiting for a healthy organ.

The Deep River Police Service is a strong supporter for organ and tissue donation.

Through our DRPS communications platforms and social media presence we will share the activities planned and promotional events throughout the month. More to come...

We are asking for your support to share these activities with your teams and to promote the BeADonor month.

One of the biggest ways people can contribute is to register for organ and tissue donation. Only 35% of Ontarians have registered for donation, despite 90% of people in favor of organ and tissue donation. When people register for organ donation, families almost always proceed with donation. In the absence of registration, families have to make the difficult decision during a difficult time, and we see consent in only about half the situations. I encourage all of you to talk to your families, parents, aunts, uncles and friends about your wishes and theirs.

If you have not registered for Organ and Tissue donation before, the easiest way to do this is to register online (www.beadonor.ca) or at Service Ontario. Please encourage your teams, staff, family, and friends to register for organ and tissue donation.
